PROFESSIONAL EXPERIENCE

BXR Advisory Partners LLP

London

Software Engineering Intern

November - December 2025

- Engineered an upload system that used API integrations to enable direct ingestion into accounting software and eliminating reliance on slow, manual web interfaces.
- Built a structured database for investment opportunities and integrated it with a clean, intuitive dashboard for rapid deal comparison, including statistics on closed and declined deals.

Investment Intern

September - November 2025

- Supported the investment team in evaluating early-stage and growth investment opportunities, gaining exposure to private equity, venture capital and advisory processes.
- Assisted in client meetings and investment pitch calls, contributing to discussions on potential deal structures and value creation strategies.

Tanglin Trust School

Singapore

Hackathon Judge

September 2024

- Assessed 15+ student-built apps based on code quality, feasibility, and innovation
- Collaborated with Heads of Department serving as co-judges to discuss evaluations, align scoring criteria, and select winning projects

TECHNICAL PROJECTS (more on github & portfolio)

[The Cube Game](#)

2025

- A mobile app, play daily, earn scores, and compete on global leaderboards in quick, addictive challenges.
- Gained practical experience in mobile app development, animation optimisation, and UI/UX design within a cross-platform framework.

[Microservice Voice Assistance \(Alexa\)](#)

2025

- Developed a working Alexa microservices system using Flask
- Enabled voice querying of local weather and other data with scalable microservice architecture

OTHER EXPERIENCE AND LEADERSHIP

Tanglin Trust School

Singapore

Pastoral Prefect Volunteer

August 2020 - April 2021

- Coordinated morning enrichment for 20+ younger students; built mentoring and leadership capabilities
- Liaised with academic staff to ensure student wellbeing and academic progress

Tanglin Trust School

Singapore

Infant School Assistant Volunteer

May 2019

- Supported daily classroom operations and developed strong communication, patience, and multitasking skills
